

Technical Data Sheet

Product:

Roachmaster Junior

Code:

CAR-REPS

Description:

The Roachmaster Junior is a high density plastic cockroach monitor that uses replaceable prebaited adhesive cardboard liners.

Active ingredient: High-density polypropylene trap, plus replaceable pre-baited adhesive cardboard liners.

Inert ingredient: Glue

Longevity: The trap is durable, reusable and will last for up to 7 years. Replace the cardboard liners every 8 weeks.

Packaging: Box of 100

Size: 110x80x17mm.

Target pests: American cockroach, Oriental cockroach, German cockroach.

Where to use: Suitable for food processing facilities. Can be used both indoors and outdoors.

Application:

Place the pre-baited liner inside the trap and place where cockroaches have been seen.

Due to the slim design, it is ideal for sliding under cupboards and hard to reach places.

Storage:

Store in a cool, dry place out of direct sunlight.

Precautions:

Avoid extensive contact of the cardboard liners by hand to maintain the efficacy of the trap.
